Guidance of Reading

Mengyang Liu*

Edge System Group, School of Computer Science and Engineering, Southeast University

Date: November 14, 2022

1 About

Edge System Reading Group is supervised by Prof.Dong and organized by Mengyang Liu currently. The core idea of the group is sharing which means that we are glad to share information about edge system with friends inside and outside the group.

2 Paper pool

To guarantee the quality of our sharing and the strong correlation with the edge system, we create a paper pool to manage papers to read and share.

We are tend to select latest papers from *MobiCom*, *NSDI*, *SIGCOMM*, *MobiSys*, *OSDI*, *ATC*, *SenSys*, *UbiComp* and *RTSS*. Please feel free to add papers into the pool beyond these recommended confs.

3 Presentation

We open the seminar to present one paper weekly. It's recommended for the presenter to prepare slides for the presentation with about 45 minutes. The presentation will be held online and publicly on videotelephony software such as Tencent Meeting, Zoom or Teams.

It's welcome to join the seminar wherever you come from!
